

Original top left hand corner- changes added to image next to it- playfulness
added to lower right image.
Are these improvements from the first?
Do they work?
How could I take this forward/ more improvements?
additional feedback?

top left is original piece- top right was made with the suggestion of different sizes and better strike throughs- bottom right has no strike throughs to see if this is more acceptable.

Have these improved?

Which works better?

How could I improve further/ make it better?

Additional feedback?
